Shared Hotels BENEFITS

HOLIDAY BENEFIT PROGRAMME · INFORMATION SHEET

A benefit employees *genuinely use*

For the HR, CEO and CFO of large Polish employers (1,000+ employees)

> *Shared Hotels turns the company's social budget into a real, annual holiday benefit for employees — without the company having to run a hotel.*

THREE PROBLEMS WE SOLVE

01

Turnover and difficulty retaining people

Benefits "on paper" don't keep employees. What's needed is a benefit employees genuinely use every year and look forward to.

02

Leave seasonality at the peak of summer

Everyone wants leave in July–August. A programme available at least 6 months a year (March–November) eases the peak and balances trips.

03

ESG and wellbeing without measurable action

Companies with 1,000+ employees report ESG from 2028 (Omnibus I). Annual holidays are something concrete for the S pillar — not a declaration, but action.

S

ESG · SOCIAL PILLAR

Rafał Rudzik, Director of Sustainability, Żabka: *"ESG stops being a cost — it becomes a benefit."* Shared Hotels delivers something measurable and concrete — annual holidays — to back this up.

Shared Hotels BENEFITS

HOW THE PROGRAMME WORKS

Four steps — from the decision to the employee's annual holiday

HOW IT WORKS

1 The employer joins the programme

The programme starts using funds from the Company Social Benefits Fund (ZFŚS) — without directly engaging the company's operating budget. A paid analysis precedes the decision and provides exact data for the specific company.

2 SH secures hotel capacity to order

For a specific employer's order, SH secures an existing hotel property in a warm destination (available at least 6 months a year). The property **is bought to order — not "in reserve"**. The hotel is purchased to the employer's order — SH backs the programme with the assets of these hotels.

3 Two components for the employee

Discount voucher (ZFŚS): funded by the employer from social funds — assigned to the position, it passes to the next employee on a change.

Package / Gold Card: bought with the employee's own funds — assigned to them personally, the employee keeps it even after changing employer.

4 A specialised operator runs the hotel. Employees use it every year.

The company doesn't become a hotelier — operational risk and day-to-day running sit with the specialised operator. An annual stay available at least 6 months a year. A benefit the employee genuinely plans with their family — recurring, throughout the programme (5, 10 or 15 years).

⚠ **The exact parameters (locations, costs, programme scale)** come from a paid analysis prepared individually for each company. The above describes how it works and is not a price offer.

ARGUMENTS BY ROLE

What each decision-making role gains

BENEFITS BY AUDIENCE

ENTRY POINT CHRO / HR	STRATEGIC DECISION-MAKER CEO	FINANCIAL REVIEWER CFO
→ Eliminating leave seasonality — trips spread evenly across the season	→ The company doesn't become a hotelier	→ A ZFŚS benefit — without the company's operating budget
→ A benefit with genuinely high usage — not "for the drawer"	→ Operational risk sits with the specialised operator	→ 2 components: voucher (ZFŚS) + package (employee's funds)
→ Retention and employment stability	→ A measurable effect on retention and employer branding	→ An orderly, measurable programme — not a scattered cost
→ A strong recruitment argument in a candidate's market	→ Strengthening the position of an attractive employer	→ Financial risk sits with the operator
→ Wellbeing and work-life balance — real recovery	→ ESG — concrete data for reporting (Omnibus I, from 2028)	→ Full financial model available after signing an NDA
→ HR doesn't manage a hotel — zero extra work	→ Security: properties to order, SH backs it with the hotels' assets	
→ ESG (S pillar) — concrete data for non-financial reporting		
→ Funded from the ZFŚS — no operating budget		

ILLUSTRATIVE PERFORMANCE INDICATORS

25–40%	75%	69%	3–6×
Lower turnover rate after implementing wellbeing programmes	of the year locations available (min. 6 months of the season)	of HR confirm better retention after implementing wellbeing	Return on investment in employee wellbeing

The above indicators are illustrative. Exact values for your company — the result of a paid SH analysis.

INDICATIVE BENEFITS CALCULATOR

How much your company *could gain?*

INDICATIVE CALCULATIONS — EXACT FIGURES FROM A PAID SH ANALYSIS

NUMBER OF EMPLOYEES
1,000

INDUSTRY / EMPLOYER TYPE
Manufacturing

CURRENT ANNUAL TURNOVER (%)
18%

AVERAGE COST OF RECRUITMENT + ONBOARDING (PLN)
15,000 PLN

~49 people
Estimated reduction in departures / year
(approx. ~27%)

~729,000 PLN
Estimated recruitment savings / year (PLN)

~120,000 PLN
Estimated programme cost from the ZFŚS / year (PLN)
(min. ~PLN 10/employee/month)

Important: *The above values are indicative — based on typical market data (turnover reduction ~27% after implementing a holiday benefit, programme cost ~PLN 10/employee/month).* ***Exact figures for your company only from a paid SH analysis, after signing an NDA.***

WHAT DOES THE PAID SH ANALYSIS INCLUDE?

📊
Employee needs assessment
Survey: destination preferences, seasonality, family profiles, willingness to take part.

🏨
Location recommendation
Specific property proposals matched to the employee profile and ZFŚS budget.

💰
Full financial model
Costs, ZFŚS terms, 5/10/15-year scenarios — for this specific company.

📋
Implementation plan
Timeline, employee communication rules, proposed terms of the contract with SH.

Shared Hotels BENEFITS

DECISION PATH

What the path to launching the programme looks like

MILESTONES — FROM FIRST CONTACT TO SIGNING THE CONTRACT

M1	M3	M5	M6	M8	M12
First contact with HR	Online presentation for HR	CEO / CFO + HR meeting	Signing the NDA	Paid analysis	Signing the contract with SH

STAGE 1 — OPENING

Talks with HR, model presentation, meeting with the board.

No financial commitments.

STAGE 2 — PAID ANALYSIS

After the NDA: full financial model. Ordering and paying for the analysis.

First financial commitment.

STAGE 3 — DECISION

Presentation of results, negotiations, signing the contract.

The programme starts.

> *The first call is a presentation of the model and answers to your questions. The first financial commitment comes only with the paid analysis — before that, just conversations.*

NEXT STEP

Book a 30-minute call

We'll show how the programme works for a company of your size. No obligations, no pressure.
